

A Minnesota-Made Exchange: By the Numbers

1.2 million+

A new Minnesota-made exchange would serve more than 1.2 million Minnesotans – about 20% of the state.

\$1 billion+

Minnesota families will save over a billion dollars in health care costs thanks to a Minnesota-made exchange.

\$500

The average Minnesota family buying insurance through a Minnesota-made exchange will save \$500 in health care costs.

20%+

Individuals purchasing coverage through a Minnesota-made exchange will see their premiums drop by more than 20% on average.

300,000

Nearly 300,000 uninsured middle-class Minnesotans will gain coverage through the exchange by 2016.
